TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Amherst in the
County of Hillsborough in said State, qualified
to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in
said Amherst on Tuesday, the thirteenth day of March,
next at eight of the clock in the forenoon, to act upon
the following subjects:

1. To choose all necessary Town Officers for the
year ensuing.

2. To raise such sums of money as may be necessary
to defray town charges for the ensuing year and make
appropriations of the same.

3. To see if the Town will vote to give the Selectmen
and the Town Treasurer authority to borrow money in
anticipation of taxes.

4. To see if the Town will vote to allow a discount
of One percent (1%) on taxes paid by May 1st, 1951,
any person paying 80% of their tax bills by May 1st.
1951 to be allowed benefit of the aforesaid discount.

5. To see if the Town will vote to request either the
Tax Commission or the Selectmen to complete a re-
appraisal of land and buildings within the Town to
equalize valuations in accordance with the law and to
raise and appropriate money for this purpose.

6. To see if the Town will vote to accept as a gift
the deed to a triangle of land bounded by Main Street,
Route 101 and Knight Street, from Miss Honora Spald-
ing in memory of her mother, Rebecca Atherton Spald-
ing, and to raise and appropriate money to beautify the
same.

7. To see if the Town will vote to establish a Muni-

cial Court the salary of the justice of which shall be paid from the proceeds of said Court, but in no event to exceed the statutory minimum of \$100 annually.

8. To see if the Town will vote to extend the street lighting system on route 101 to the Lyndeborough Road.

9. To see if the Town will vote to discontinue and abandon that part of the Thornton's Ferry Road between the abandoned railroad right of way and the Boston Post Road, subject to an easement in favor of the Amherst Water District to lay and maintain water lines over the same route, Provided, however, that Depot Road can be extended to the Thornton's Ferry Road without cost to the Town.

10. To see if the Town will vote to discontinue and abandon that part of Jones Road between the New Boston Road and the Mont Vernon Road.

11. To see if the Town will vote to raise and appropriate the sum of \$650. for painting the auditorium of the Town Hall and refinishing the floors thereof.

12. To see if the Town will vote to instruct the Selectmen to appoint a Committee for the purpose of holding hearings and naming the streets of the Town.

13. To see if the Town will vote to raise and appropriate the sum of \$400. for the control of White Pine Blister Rust in Amherst, in cooperation with the State Forestry and Recreation Department.

14. To see if the Town will vote to amend that part of the Zoning Ordinance under Article I, Section 1, item 2 (Roadside District) so that Route 13 will be included therein.

15. To see if the Town will vote to amend Section 3 of the Zoning Ordinance so that the Roadside District shall enjoy the same restrictions and regulations

as are contained in Article I, Section 2, item C, D, and F of said ordinance.

16. To see if the Town will vote to allow the School District to use part of the dining room of the Town Hall as a classroom in 1951 and 1952, if necessary.

17. To see if the Town will vote to raise and appropriate the sum of \$682.50 for hydrant rental, being the estimated pro-rata amount of the yearly hydrant rental. This charge is based upon fire protection water being available and approved by the underwriters July 1st, 1951 and is based upon a rate of \$65. per hydrant per year, adjustment to be made to the Town pro-rata from any later date of acceptance.

18. To see if the Town will vote to grade, gravel and surface treat with oil that part of the New Boston Road from the junction of the Mont Vernon Road to the Mont Vernon line near the residence of Warren McCullough, and to raise and appropriate money for the same. (By petition)

Given under our hands and seal, this 23rd day of February, in the year of our Lord nineteen hundred and fifty-one.

ARTHUR L. UNDERWOOD,
MAURICE E. BARRETT,
DONALD H. DAVIS,
Selectmen of Amherst.

A true copy of Warrant—Attest:

ARTHUR L. UNDERWOOD,
MAURICE E. BARRETT,
DONALD H. DAVIS,
Selectmen of Amherst.

	-----	\$568 33

During 1950 forty-nine calls were made, distributed as follows: 11 building fires; 8 chimney fires; 3 automobile fires; 6 grass and rubbish fires; 3 town dump fires; 3 oil burner fires; 1 tar barrel fire; 1 hay rack fire; 1 silo fire; 3 railroad fires; 2 State brush fires; 7 out of town fires.

Mutual aid was given to Mont Vernon, once; to Milford, three times; and Wilton, once. Man power at fires: 856 men. No. 1 Truck, Chevrolet, out 15 times; No. 2, Ford truck, out 46 times; No. 3, Ford tanker, out 31 times.

Improvements: the engine house has been shingled, also painted; the chimney has been re-built. Built the kitchen and tables, and have enough dishes and silverware to serve 40—all of which was given, no cost to the town. Dug one large water hole and cleaned out two holes.

A. L. MARTIN, Chief.

LAURENCE E. CLARK,
Treasurer.

ANNUAL REPORT OF TOWN LIBRARY

The library has been an extremely busy place during the previous year.

There were 229 books accessioned during this period. Of these 105 were adult fiction, 35 non-fiction, 78 juvenile fiction and 11 juvenile non-fiction. In addition to these books, we subscribed for 20 magazines. There were 25 books donated to the library.

Grateful acknowledgement for gifts of money, books, and magazines is made to Mrs. F. V. Holmes, Miss Putnam, Mrs. Arthur Bonney, Mr. Cleaveland J. Campbell, Mrs. William Crooker, Mrs. E. B. Nichols, Mr. Charles Carruth, Mr. George Harding, and Mrs. Norwin S. Bean. We also wish to express our grati-

tude to Mrs. John L. Bailey for the beautiful painting which she gave to the library.

There were many articles of historical interest from the library which were on display at the Town Hall during "Open House."

Mrs. Walter Chambers has contributed many lovely floral arrangements throughout the past year.

In March, Miss Margaret Moser, who had served as librarian for several years, resigned and Mrs. Guy Nelson was appointed to serve in her place.

It was with much regret that the Library Board accepted the resignation of Mrs. George Huntington, who had been a member of the board for many years.

There have been 35 new patrons added during the year, making a total list of 480 patrons.

Circulation of books for the year was:

Adult fiction	3024
Adult non-fiction	575
Adult magazines	1307
Juvenile fiction	2969
Juvenile non-fiction	286

Total circulation 8161

Respectfully submitted,

MARION U. NELSON,
Librarian.

A NARRATIVE REPORT OF THE SELECTMEN

The financial report, submitted by your Selectmen, does not give the full picture of the Town affairs, occurring during 1950. Statistics are significant, and should have a central place in a town report, but figures need to be supplemented with a narrative form of report, and with the thought in mind of meeting that need, we are presenting this story for your consideration. We trust that it may clarify any points, where there are apparent discrepancies, and provide for all of our citizens a larger and clearer view of our Town, as it functions in the field of municipal efforts and achievements.

Town Hall

Our beautiful Town Hall has been further beautified during the last year, due largely to the civic pride that has expressed itself in painting walls, improving floors, restoring the fireplace, hanging appropriate draperies in the Selectmen's office, and other worthwhile improvements. Much of this work has been made possible by free labor that has been gladly given. We feel that our Town Hall should be used by an increasing number of organizations, properly sponsored and directed.

Insurance

The matter of town insurance has engaged our attention. We have examined the various policies, covering property, liability and bonds. In addition, we have studied the matter of spacing the policies so that the insurance cost may be distributed on a more constant expense basis.

Schools

Amherst's school problem has become increasingly acute during these recent years. Hollis, New Boston and Brookline have a similar problem. During this

past year a committee, made up of representatives from these four towns, has carefully studied this problem; your Selectmen formed a part of Amherst's members on that committee. Out of our experiences with that group we have concluded that there is merit in every constructive proposal and careful consideration should be given to all of the proposals by all of the citizens of our Town.

Re-appraisal of Property

In connection with the re-appraisal of the taxable property of the town, the point we wish to accent is that there is a basis of equalization of appraisal among towns, followed by the State Tax Commission, that has a direct bearing on the town's borrowing capacity, the town's share in County Taxes, and the State's assistance in the matters of roads and schools. The valuation, made by the local assessors, is purely a matter of equalization of appraisal of property among our own taxpayers.

General Expenses Highway Department

According to the financial report in this department, there is an overdraft of \$373.62. A word of explanation is in order: During the year 1950, two liability insurance premiums were paid — one in January, covering the year 1950, the other in December, covering the year 1951. Furthermore, \$266.72 was spent for supplies and remodeling the town barn; against this item of expense, we have received \$178.60 from the sale of old equipment, as authorized in article 10 of the 1950 Town Warrant.

Town Dumps

A bulldozer blade was purchased for the grader, at a cost of \$150.00. Apparently this was a sound investment, since the cost of the actual care of the dumps has been markedly reduced.

Spraying

Your Selectmen have spent a part of the 1950 appropriation for spraying for the removal of one large tree (which was a peril) and trimming several other trees; in addition we have fertilized, where a tree expert has directed. Such a program seems to be in keeping with the program of the State Entomologist, J. G. Conklin.

Election and Registration

You will note that there is an over-draft in this department, amounting to \$107.44. This deficit is due to the fact that during the year 1950, both a primary and State election were held, and also, claims, larger than usual, were presented and allowed; this latter fact may be explained by stating that the voting hours were increased three hours. Your Selectmen would appreciate any constructive discussion, relative to the hours the polls should be open, together with amount election officials should be allowed.

Tax Discount

About the first of May, each year, the treasury of the Town reaches a low level. Your Selectmen feel that a discount of 1% on taxes paid by May 1st, will not cost the Town any more than the interest the Town has to pay on short term notes. Such a discount would be to the advantage of those in a position to use same, and at the same time, it would not work a hardship either on the Town or any citizen.

Timber Tax

The Yield Tax on timber, after one year's operation, amounts to \$783.11, as against \$2675.08, which the Town would ordinarily receive under the old system. However, the Town has been paid \$1891.97 by the State. The spirit of cooperation has been shown by the timber operators, thus making the system more

practical and simplifying the extra work of the Selectmen.

Town Roads

The "Long Range" program, covering a period of six years, set up in 1946, by the Road Commission, the Selectmen and the Road Agent, has been working out very satisfactorily. The program has three years to go, and the T.R.A. funds, for the next three years, are earmarked to complete the hard surfacing of the North Manchester Road, the Nichols and Mack Hill Roads, and the New Boston Road.

Municipal Court

We understand that no town that has a municipal court suffers any losses through salaries, and as a rule, the courts are more than self-sustaining and produce some revenue for the town. Should the income for the first year not equal the salary of the justice, the same shall not be paid out of the general funds.

Open House Days

The following summary is submitted by the Open House Committee, Richard D. LeMay, chairman:

Unanimous cooperation was never more apparent than on July 7th and 8th, last, when not only ten of the historic and colonial houses but the entire town opened its doors and hearts to welcome visitors from all New England. Results were achieved not only in dollars, but in expanded friendships, united effort and the frequently expressed pleasure of visitors, whose previous glimpses of our lovely village had inspired a craving for a glimpse behind the doors of the colonial homes.

At each house hostesses, in beautiful colonial costumes, welcomed the guests and pointed out the interesting and historical features. The Third Court House, now the Town Hall, was headquarters for registration and tickets. The Selectmen's office, transform-

ed to an 18th century setting, provided background for the display of the town treasures — flags, Proprietor's Records, Proprietor's Maps, portraits, measures, letters, etc. The fire engines were exhibited at the Fire House and on the Common, the Yankee and the Lawrence, with their accompanying equipment of helmets, trumpets, buckets, and early hose, attracted the attention of all. A most successful tea, both afternoons, and a luncheon, on the Commons, July 8th, were sponsored by the Woman's Association of the Congregational Church. Proceeds from our efforts were added to the fund being raised for interior renovation of the Second Meeting House, the present Congregational Church.

The open houses were the homes of Mr. and Mrs. Norwin S. Bean, Mr. and Mrs. Howard R. Locke, Miss Honora Spalding, Mr. and Mrs. Herbert Hixon, Mr. and Mrs. Benjamin G. Bundy, Mr. and Mrs. Charles Carruth, Mr. and Mrs. Otto K. Neugebauer, Mr. and Mrs. Richard D. LeMay, Mr. and Mrs. Philip B. Holmes, and Mr. Alfred Lincoln.

Town Report Award

The Bureau of Government Research, The University of N. H., awarded to Amherst second place in Class III, for the year 1950, in recognition of its 1950 Annual Town Report.

Amherst Village District

During the past year the bounds of the Amherst Village District have been revised.

With a keen sense of loss do we chronicle the death of Charles A. Tracy. Mr. Tracy was a highly respected citizen, whose keen interest in our Town was always in evidence; he wrought well and faithfully in those matters that make for a better community.

Our final word of this narrative report is: For the hearty cooperation that has been manifested by our

citizens, we do thank you. If, at any time, you feel that you have a grievance, make it a point to lay your grievance before us, and together we shall reach an understanding. Our tasks are many and varied, and since the human equation plays a part in all of our relationships, quite likely there are situations where injustices have been done; all such cases should be placed before your Board of Selectmen, with the full assurance that we stand ready to correct any and all mistakes, so far as possible. The international turmoil is an outgrowth of misunderstanding and suspicion; let us build, here in Amherst, a community where understanding is the key word, for where understanding prevails, suspicion and misgivings cannot thrive.

Ways and Means Committee Report

For School District Meeting December 16, 1950

Your committee recognizes in principle the urgent need for increased space, higher scholastic standards and additional teachers as described in the Amherst School Report.

The uncertainties caused by our current international crisis such as cost and availability of materials and labor and the rapidly expanding cost of government, which will be directly reflected in higher taxes, lead us to the conclusion that undertaking such a costly expansion as consolidation or building a new 4 room school, which will put the Town heavily in debt, cannot be recommended.

We feel that consolidation is the ultimate answer to our school problem; however a sound plan for consolidation will cost substantially more than indicated in the School Report. This is predicted because of greatly increased prices by the time such a plan is installed.

Also teachers' salaries represent a large proportion of the budget and if we want our children prepared to compete on an equal basis with the graduates of schools with higher standards, we must be able to hire teachers of equivalent background, training and experience. This will add substantially to the estimated costs as reported.

The complexities of a decision to consolidate now under the existing law, its amended version or our own enabling act are too many to discuss reasonably at a meeting such as this, however they have pointed to the following conclusions.

A definitely improved educational system must be adopted and its cost would probably be greater than our taxpayers could afford since the prime source of our taxes is personal property.

A sound consolidation plan will probably be one based on a state-wide program which should include state aid and an equitable distribution of expenses to all school districts.

To proceed with the construction of a consolidated school for the four towns which are now considering the plan would mean logically that it would be located

in Amherst. If state-wide consolidation materializes, the more logical location would be Milford, the center of a much larger consolidated school district. This means that an expensive school building would be in the wrong place and would be too small to meet the needs of a larger district.

Should the Town decide against consolidation, then building a four room schoolhouse in the village would be the next logical step; however, under today's conditions, a very expensive one. The school report shows an annual cost almost equal to consolidation but without the advantages of consolidation.

On the basis of the school census, such a school would be required to accommodate the first six grades even under a state consolidation of the secondary system.

We also feel that the teacher requirements would be the same as described above which means a larger annual cost than shown in the school report.

It would seem better judgment then to consider a progressive action which will alleviate the cramped quarters at a minimum cost to the Town during this period of uncertainty caused by the national crisis and the confusion of existing state laws and plans of the state department of education.

To this end, we recommend acquiring a local building which can be modified at reasonable cost to be used for classrooms. Then when economic conditions become more stable or the state presents a satisfactory plan of consolidation with state-aid, the Town can reconsider this problem under the new set of conditions existing at this future date.

At such time the building which we propose to acquire can be sold or possibly used as a home for the Headmaster.

Therefore, we move that a building committee made up of: Henry Merrill, Chairman; Oliver Merrill, Carl Merrill, Donald Stockwell, Tenney Clough and V. F. Holmes, with the Selectmen as ex-officio members, be charged with the responsibility of investigating the possibility of acquiring a building suitable for classrooms, with reasonable modification, and based on their findings to place in the warrant for the next annual school meeting an article to raise and appropriate the necessary funds to accomplish this end.

Report of Ways and Means Committee

The major problem of the school district is to decide what positive action will be taken to improve scholastic standards and to alleviate the crowded classroom conditions.

As stated in our previous report, your committee is certain that a sound consolidation will achieve these aims at the lowest possible cost. We feel strongly that continuing district action to accomplish this should be planned.

We do not feel that the proposed consolidation is sound and therefore recommend that it be rejected. It will impose a heavy tax burden. It would be difficult to accomplish now. We do not expect that it will be approved by all of the other participating towns.

We recognize that constructing a local four room building would delay ultimate consolidation indefinitely since the district cannot reasonably consider assuming the large capital expenditure for consolidation while carrying the financial burden of three school buildings. We recommend rejecting this proposal.

The plan to send our high school students to Milford receives our approval since, although it may be considered temporary, it leaves open the way for future consolidation by eliminating the need for any large scale capital outlay at this time.

It definitely will improve the scholastic standards, improve student morale and discipline and eliminate the crowded classrooms as no other temporary economical proposal can expect to accomplish.

Your committee recommends that the estimated expenditures, as presented by the various departments and listed in your school and town reports, be accepted and that the Town vote to raise and appropriate sums to provide for them with these exceptions:

SCHOOL DISTRICT

Article 9. We recommend that the district vote to raise and appropriate the sum necessary to increase the coverage on school property to its full insurable value.

Article 11. We recommend that the district vote to raise and appropriate the sum of \$1266.99 necessary to provide a \$100 bonus to the regular teachers to com-

pensate for the increased cost of living since contracts were signed for the present year (1950-51) and to pay the additional retirement allowances.

Article 12. We recommend that the district vote to reject this article.

Article 13. We recommend that the district vote to reject this article.

Article 14. We recommend passing over this article.

Article 15. We recommend passing over this article.

Article 19. If Article 18 is not adopted, we recommend voting to raise and appropriate a sum not to exceed \$4200 to cover the cost of finishing off the two basement rooms of the Clark School, and partitioning off a room in the dining hall of the Town Hall. We recommend voting to raise and appropriate the sum of \$500 in excess of the budget for operating expenses.

TOWN

Article 2. Library. We recommend \$1500 to enable the library to serve better the townspeople and the school.

Article 5. We recommend that the Town vote to raise and appropriate the sum of \$600 for the Selectmen to initiate a complete re-appraisal of land and buildings within the Town to equalize valuations.

Article 6. We recommend that the Town vote to raise and appropriate \$200 to carry out this article.

Article 11. We recommend \$450.

Article 13. We recommend that this article be rejected.

Article 18. We recommend that no money be voted for this purpose. We recommend further that the Selectmen and Road Agent consider the preparatory work on this road in accordance with the long range program with TRA funds when available.

ARNOLD WIGHT, Chairman
MERIC G. ARNOLD
JOHN DUFF

REPORT OF THE CHIEF OF POLICE

Arrests	4
Held and released	1
Accidents with two vehicles involved	8
Accidents with one vehicle involved	2
Motor vehicle complaints	2
Warnings issued for motor vehicle violations	12
Lost articles	1
Stolen goods	4 cases
Returned property	3 cases
Missing persons	1 call
Disturbances	3 calls
Cattle running loose	2 calls
Lost animals	1 call
Dances at Lake	24
Dances at Town Hall	17
Also 5 other gatherings at Town Hall requiring police	
1 dance at Jack-o-Lantern	
Drownings (Baboosic Lake)	1
Accidental shootings	1
Assistance to out of town departments	5
Other assistance	9 cases
Dog calls	9
Dog bites	1
Dogs shot	4
Lost dogs returned	5
Dogs killed by motor vehicles	3
Fires	2
Emergency messages delivered	2
Complaints investigated	28
Traffic light reported out and repaired 4 times	
Signs removed	3

Patrol duty, Memorial week-end and July 4th week-end	8 hours
Patrol duty, 4 officers, Amherst Open House Days	64 hrs.
Civilian Defense meetings attended	3
Hallowe'en duty, 3 men	17 hrs.
Registration plates found and turned in to Motor Vehicle Dept.	5
Auxiliary Police for Civilian Defense	8

This Department extends thanks for cooperation received from Sergeant Conti and Trooper McBain of the State Police and Inspector Landry of the Motor Vehicle Department, also the Milford Police Department.

ALBERT H. JUNKINS,
Police Chief.

SEXTON'S REPORT

Out of the \$1050 appropriation of 1950, \$214.88 was spent on the Old Cemetery, \$34.69 on the Cricket Corner Cemetery, \$29.55 on the Chestnut Hill Cemetery, \$6.88 on the Ponemah Cemetery, and the balance on Meadowview Cemetery, including painting the front fence from the near corner to the first gate, \$12.00 to Artron Monument Company to repair and set in place the stone post that was broken off a previous year by one of the snow plows, \$20.00 to Jake Young for removing a large dead hard pine, also \$10.00 to L. Paul Ecklund for a set of second hand grave greens to help out on our present ones which are nearly worn out.

Owing to the Open House days in July, the cemeteries received an extra mowing and cleaning up, and a few more shrubs were set out.

There were 14 burials made, of which seven were brought in from out of town, including one infant, and seven from town, including one infant.

Your Sexton would like to see the town vote for a special appropriation of money to buy paint to continue the painting of the fence and tool house.

CLARENCE H. HAGAR,
Sexton.

AMHERST TOWN HALL JANITOR'S REPORT

The Town Hall has been a very busy place during the year 1950. There were 141 scheduled meetings, dances, suppers, plays, basketball and many other activities. Added to this list are the many rehearsals for the Men's Club minstrel show and school plays. About four and a half months of the past year the school has used the hall for basketball practice at least four afternoons a week. Also added to the long list are the school lunches which ran for about six months five days a week except holidays and vacation periods.

The Selectmen have been in their office at least once a week. Also various committees have met there.

Many of the activities have included the use of the upper hall, the dining room and kitchen.

Probably the school has reaped the most benefit from the hall as they have used it the most with no expense to them or to the School District.

The American Legion, the Grange, the Men's Club and a few others who use the hall once in a while pay something for the use of it. Therefore they have the priority for their scheduled nights.

The expenses of operating the hall have increased considerably of late, but considering the activities which take place there, I am sure that you will find it to be the most economically operated public building in town.

DWIGHT P. BROWN,
Janitor.

REPORT OF THE AMHERST ROAD COMMISSION

To the Taxpayers and Citizens of Amherst, N. H.:

During the past year your highway department has expended \$7021.79 for Summer Maintenance. The several divisions of the work are as follows:

Gravelling	\$1058.95
Culverts	911.82
Brush Removal	2470.82
Grading	2580.10
	<hr/>
	\$7021.79

Substantial gravelling of feeder roads was done in the following locations:

Austin Road
 Mack Hill
 North Street
 Charles Wright's Road
 Junkins' Road
 Chestnut Hill
 Cricket Corner Cemetery Road
 Cricket Corner from Nichols' to Peaslee's Mill
 Also numerous mud holes

The Culverts division shows an increased figure which includes the replacement of the wooden bridge between Uphams' and Faber's with a large tile culvert.

The Brush Removal division is self-explanatory and reflects a large amount of hand labor.

Under the Grading division is included the grader expense for gas and oil. The new grader equipped with a bulldozer blade took care of the dumps at a net cost of \$53.30 which is a considerable saving over past years.

The grader rental amounted to \$549., of which only \$364. was collected in time to be included in this

year's report, but the total amount has been collected and placed in a new Grader Fund.

New road construction in accordance with the long range program was accomplished as follows:

Cemetery to junction of Christian Hill Roads – Gravelled, 5 culverts installed oiled and sealer coat applied. Distance 1 mile.

Weston to Nichols Road – Corners straightened and partially gravelled. Distance 1 mile.

This work was done with T.R.A. funds and is not shown in your Highway Agent's Report.

Program for 1951

We believe that the oiling appropriation can be reduced this year to \$5000. since it will be unwise to oil the village streets, which normally would have been done in 1951, until the Water System has been completed.

We feel that \$7000. will be needed to properly maintain your road system; and that at least \$1000. of this sum should be used for graveling the feeder roads.

Of course it is also necessary to raise the town's contribution to the T.R.A. fund.

We recommend that further hard-surfaced construction be carried on under the long range program, and continue to be scheduled by your selectmen, highway agent, and state highway department. Also, that only as much work be done in any one year as the T.R.A. funds permit.

Considerable improvements were made to the town barn during the year. Windows and electricity were installed, a cement floor was poured in one half of the space, and a stove and chimney were added at a cost of \$156. This was financed by the sale of discarded material and machinery which was sold for \$176.80.

Your commission is studying the advisability of the

town owning a tractor for brush cutting and sand loading; and also a tar kettle.

We wish to express our appreciation for the co-operation rendered by Mr. Harold Aldrich.

Respectfully submitted,

RAYMOND E. STIMSON,
RICHARD W. WESTON,
HAROLD H. WILKINS, Jr.

BOARD OF HEALTH REPORT

January 28 1951.

To the Honorable Board of Selectmen
and Citizens of Amherst, New Hampshire:

I herewith submit my annual report as Health Officer for the year ending January 1, 1951.

The work of the Health Officer during the year 1950 consisted in the main of making necessary reports to the State Board of Health and following instruction of the same.

Town water should obviate inspection of individual water supply to a large extent and insure the health and happiness of Amherst, New Hampshire.

Respectfully submitted,

OSCAR BURNS, M.D.,
Health Officer.

OFFICE OF ADMINISTRATIVE OFFICIAL ZONING ORDINANCE

The following is the report of the Administrative Official, Zoning Ordinance, for the year ending December 31, 1950:

During the year, 19 permits were issued by the Administrative Official.

The experience of the previous Administrative Officials was repeated in that all requesting permits showed complete willingness to abide by the provisions of the Ordinance as well as approval of the aims and purposes of the Ordinance. In addition, several suggestions looking to changes in the Ordinance showed a continuous and growing interest in the effect of the Ordinance on the town.

To accomplish a portion of the suggestions, it is recommended that the Zoning Ordinance, adopted March 12, 1946 and amended March 11, 1947, be amended as follows:

Article 1, Section 1, paragraph 2: amend to include Route 13 in the Roadside District.

Article 1, Section 3: amend so as to eliminate paragraphs A and B and add as new paragraphs to this section, lettered A, B, and C, paragraphs C, D, and F of Article 1, Section 2.

Respectfully submitted,
WILLIAM C. VOSE,
Administrative Official.

January 5, 1951.

WARRANT FOR ANNUAL SCHOOL MEETING**The State of New Hampshire**

To the Inhabitants of the School District in the town
of Amherst, New Hampshire, qualified to vote
in district affairs:

You are hereby notified to meet at the Town Hall in
said district on the ninth day of March, 1951, at eight
o'clock in the afternoon, to act upon the following sub-
jects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the
ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the
School Board and Truant officer and fix the compensa-
tion of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Com-
mittees, or Officers chosen, and pass any vote relating
thereto.
7. To choose Agents, Auditors and Committees in
relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise
and appropriate for the support of school, for the salar-
ies of district officials and agents, and for the payment
of statutory obligations of the district, and to authorize
the application against said appropriations of such sums
as are estimated to be received from the State Equaliza-
tion Fund together with other income; the school board
to certify to the selectmen the balance between the es-
timated revenue and the appropriation, which balance

is to be raised by taxes by the town. (See Nos. 1-19 of Budget.

9. To see how much money the district will raise and appropriate for insurance on school property. (See No. 20 of Budget.)

10. To see how much money the district will raise and appropriate for special repairs and alterations of school property and for new equipment. (See Nos. 22 and 23 of Budget)

11. To see if the district will vote to raise and appropriate as a deficiency the sum of \$1,266.99, necessary to grant the request of the regular teachers for salary adjustment for the present year (1950-51) in order to compensate for the increased cost of living since contracts were signed and to pay the additional Retirement allowances. (See last item of Budget)

12. To see if the district will consider the formation of a Cooperative School District with Brookline, Hollis and New Boston covering Grades 7-12 inclusive.

13. If the preceding article is not adopted, to see if the district will vote to build and equip a new elementary school consisting of not less than four regular classrooms with sanitary facilities, provide the necessary equipment and furnishings and take any other action relating thereto.

14. If the preceding article is adopted, to see if the district will vote to raise and appropriate not to exceed the sum of seventy-four thousand, two hundred dollars (\$74,200) for the construction, equipment and furnishings for such new elementary school; and whether the district will vote to authorize the issue of serial notes or bonds upon the credit of the district for all or any portion of the sum so raised and appropriated; and to authorize the school board to determine the terms and conditions upon which the notes or bonds

shall be issued including their sale, the time and place of payment of principal in accordance with the municipal bond statute, N. H. Revised Laws, Chapter 72 as amended by Laws of 1951. And to raise and appropriate the sum of one thousand, seven hundred dollars (\$1,700) in excess of the budget to operate the new school.

15. If the district has adopted the article for a new elementary school, to see if the district will vote to appoint a building committee to consist of the school board and two persons to be appointed by the moderator to select the location of the new school and to supervise the construction of said building, provided that the plans, specifications and selection of the site for the new school shall be approved by the school board acting alone as required by law and the school board be further authorized to execute any and all contracts or agreements necessary in connection with the construction of said school.

16. To see if the district will vote to raise and appropriate the sum of three thousand, five hundred dollars (\$3,500) in excess of the budget as presented in order to transport and pay tuition either by contract or not to Milford High School for grades 9-12 inclusive.

17. To see if the district will vote to discontinue Amherst High School and petition the Superior Court for such authority as provided in Chapter 138 Section 34 of the Public Laws.

18. If Article 17 is not adopted, to see if the district will vote to provide temporary facilities for two classrooms, one to be the north basement room at Clark School and the other in the lower Town Hall, and request permission from the town for the use of the Town Hall for such purposes.

19. If the preceding article is adopted to raise and

appropriate a sum not exceeding four thousand, two hundred dollars (\$4,200) for the installation of partitions and lights, and the sum of \$1,000 in excess of budget for operating expenses.

20. To see if the district will authorize the school board to make application for and to receive, in the name of the district, such advances, grants in aid or other funds for educational purposes as may now or hereafter be forthcoming from the United States government or any state or private agency.

21. To transact any other business which may legally come before said meeting.

Given under our hands at said Amherst, this 13th day of February 1951.

OTTO K. NEUGEBAUER,
ELEANORE WILKINS,
DONALD N. SWAIN,
School Board.

BUDGET FOR THE SCHOOL YEAR — 1951-1952

	Working Budget 1950-51	Proposed Budget 1951-52
Administration:		
1. Salaries of district officer	\$ 291.00	\$ 291.00*
2. Superintendent's salary (local share)	583.10	629.28*
3. Tax for state-wide supervision	496.00	538.00*
4. Salaries of other adm. personnel	383.70	389.64*
5. Supplies and adm. expenses	242.87	189.84*
	\$ 1,996.67	\$ 2,037.76
Instruction:		
6. Salaries of teachers and principals	28,809.00	31,525.00
7. Books and other instructional aids	850.00	900.00
8. Scholars' supplies	800.00	1,100.00
10. Other instructional expenses	425.00	600.00
	30,884.00	34,125.00
Operation of School Plant:		
11. Salaries of janitors	1,750.00	1,950.00
12. Fuel or heat	1,100.00	1,300.00
13. Water, light, supplies and expenses	450.00	850.00
	3,300.00	4,100.00
Maintenance of School Plant:		
14. Repairs and replacements	850.00	850.00
Auxiliary Activities:		
15. Health supervision	225.00	557.00

OTTO K. NEUGEBAUER,
ELEANORE WILKINS,
DONALD SWAIN,

School Board of Amherst.

REPORT OF SCHOOL BOARD

The school board is appreciative of the support our schools have received from many sources, but feel that the problem is one for the entire school district to face. As we have mentioned before, the schools are only as good as the town wants them to be. Your board has presented the problems to the district with reasonable solutions for three years and as yet no progressive action has been taken. As we will show later the longer we vacillate and put off a decision the more costly this problem will become.

Since consolidation was your first consideration in the ballot taken two years ago, we will start with that solution. The four town consolidation of Amherst, Brookline, Hollis and New Boston is, in the considered estimation of your school board, the best solution to give your children the greatest educational values and advantages. The report submitted to you in December pointed out the comparative costs, advantages and disadvantages of this plan. Naturally the figures will have to be adjusted to meet more recent costs, we will have those figures available at the district meeting, but are certain that they will be relatively increased as are our local solutions which we will discuss next. From reliable sources it is indicated that building costs will be 12% to 15% greater than they were for all solutions in our report. All indications are that these costs will not appreciably decline for years to come. Securing building materials for school construction should offer no severe handicap at the present time.

Your second most popular choice was building in town. Our solution of a four room building would fulfill the schools' requirements for some time to come, unless there is an unforeseen overwhelming increase in school population. We have eliminated from the warrant the four room building with auditorium-gymnasium. This is certainly desirable, but apparently

inadvisable at the present time. To point up what delaying action on a solution to our school problem means, the following figures would be indicative. One year ago this four room building was estimated at \$46,000, our recent report estimated the building last fall at \$63,000, and this summer the projected estimate is \$70,000. If this solution is chosen, the school board recommends that the building committee be advised to consider use of a local contractor and day labor, on the basis that an approximate 20% to 25% savings could be effected.

Article 16 in the warrant relative to sending the high school grades to Milford, should be carefully studied. There are many advantages and many disadvantages not only to Amherst but also to Milford. The primary advantage is that the children will get a broader education in subjects which will be more beneficial to them later in life. The per pupil cost at the present time will be less than in our local high school, but the indications are that this relationship will be reversed in a few years. On the other hand, the total cost of maintaining the brick school must then be charged against the elementary grades, thereby increasing this per pupil cost. The major disadvantages are: (1) We have no assurance beyond three years that the Milford system well be able to absorb our pupils. As a result this may prove to be only a temporary solution; (2) If this plan is adopted the Amherst High School will have to be closed. This may leave us in a very vulnerable position in the event that Milford cannot take us several years from now. We will have to make a quick and perhaps expensive decision to solve that problem. If favorable action is taken on this article the \$2,700 for toilets in the Clark School will not be needed, but this sum must be applied towards partitioning the upper brick school to receive the elementary grades.

The high school grades will benefit from the larger extra-curricular activities in Milford, but the junior high school in town will be deprived entirely of the broadening influence of associating with the high school. This plan is actually another of the temporary expedencies being offered.

Article number 18 in the warrant is purely a temporary consideration and should be accepted as such. Our thoughts have been to eliminate the present basement room, which has always been considered temporary. This plan only adds one more basement room to the school. Also is it merely a stumbling block in the effort toward increasing our high school curriculum. We feel that the seven thousand dollars that this plan represents could far better be invested in a permanent solution.

The number of pupils now attending the Clark School, and the possible advent of another class there, have pointed up the need for expanded toilet facilities in this building, and a sum of \$2,700 is included in our proposed budget.

We are also recommending in the budget a sum of \$1,500 to complete the furnishing of the last two grades of the elementary school with new furniture. This is being planned to fit more suitably the sizes of the children, and also permit us the flexibility of adjusting the classroom space to any solution you may arrive at in the district meeting, and is also looking ahead toward next year when similar action will have to be taken in the upper grades.

We are including in our budget a request for a normal increase of \$100 and a cost of living increase of \$100 for teachers' salaries for next year, and at the request of the teachers, Article 11, for an adjustment in this year's salaries.

We urge you to consider carefully whatever deci-

sions you make. Your child's future depends largely upon the education he receives today.

OTTO K. NEUGEBAUER
DONALD N. SWAIN
ELEANORE A. WILKINS

SCHOOL ADMINISTRATION

Instruction

Since the teacher is the most important factor in the class room and nearly three-quarters of the budget is earmarked for Instruction, we must pause to discuss a few items under this head.

First, the flow of teachers in and out of this system is a handicap. Try as I may I cannot seem to overcome it. Since the close of the last school year, three teachers have left their positions here. One left to return to school, the others for another teaching position.

<i>Former Teacher</i>	<i>Replacement</i>
Rexford Avery	Alan McKernan
Francis Carroll	John McGrath
Una Dearborn	Rachel Shirley

Second, I wish to mention briefly only a few of the instructional fields to acquaint you with our aims or some of the changes being made. Reading is still our most important subject. Without the ability to read and interpret the printed page, the child's training is very incomplete. Neither teacher nor parent is satisfied with less. Therefore, we still lay great emphasis on this ability. The basic reading series used is the Scott, Foresman and is one of the best now available. Its use of phonics in the teaching of word recognition is according to the best practices of good teachers. Handwriting has suffered from the lack of emphasis. For the past three years we have been starting a new system called Basic Handwriting which is manuscript in Grades 1 and 2 with the transfer to Cursive in Grade 3. The results so far in the grades effected have been gratifying. Letter formations are much better with the resulting improvement in legibility. Audio-Visual aids of all kinds have received greater attention of late, particularly in film strips. All departments of the school are making use of these valuable teaching devices.

Health

We are rather proud of the completeness of our Health Program. To comment at length would be boring. However, let me call your attention to some of the features. Every child is given a health examination by the doctor and nurse. Possibly a more complete examination four to six times during his course would be preferable. Sight testing goes on in all grades, with Snellen charts and Telebinocular, hearing tests with audiometers in Grades 3, 5, 7, 9 and 12. Weighing and measuring and skin examinations are going on throughout the year. All this with home visits and the corrections secured makes for better attendance. Dental and other clinics are either carried on or sponsored by local organizations.

Another concern has been artificial lighting. The district has already installed fluorescent at the high school.

Noon lunches are recognized as a part of the Health Program. They get a very nutrititious and tasty lunch for a small fee.

Finance

Transportation

This occupies a substantial place in the budget. There are some 125 children to be carried. They are both high and elementary pupils. We feel that today it is essential to educate the high school people as it used to be to graduate the eighth grader. Hence, pupils of all grades are transported. This item requires some \$36 per pupil.

Costs, 1949-50

The average per pupil costs of Current Expenses may be of interest to you. Expenditures for transportation and tuition were excluded in making these computations for this Union. Capital Outlay is not includ-

ed in Current Expenses.

	Grades 1-8	Grades 9-12
Amherst	\$120.66	\$326.52
Brookline, (1-6 only)	83.32	Grades 7-8 in Nashua \$118.24 Grades 9-12 in Nashua 193.76
Hollis	109.52	235.96
Milford	120.53	250.47
Mont Vernon, (1-6 only)	192.82	Grades 7-8 in Milford 80.00 Grades 9-12 in Milford 150.00
State Average	152.60	252.04

Since overhead is spread over a small or a large enrollment, the figures vary from town to town and the larger the town the more nearly it approaches the State Average. Tuition rates in Amherst and Milford for 1951-52 have been established at \$120 each for Grades 1-8 and \$250 and \$225 respectively for Grades 9-12. The present rate at Nashua for grades 7-8 is \$140.39, for grades 9-12, \$233.70; at Milford for 7-8, \$120 and 9-12, \$200.

State Aid

Whether we are to get more state aid or not is now under discussion in the General Court. Since the real estate tax is not adequate to finance the school and other local departments, we must seek the broader base of state support. State aid must be provided to equalize the costs of education wherever the children are found. The inequality of dollar support from town to town borders upon discrimination and the state, whose responsibility education is, must attempt an adjustment.

Needs**Art**

This is one of the many learning experiences of the child. It is more than the mastery of a skill or a subject. However, we believe that a good art teacher can help shape this learning experience to more desirable results. That is why we advocate art instruction and the Board is including some money in the budget to give it a start.

Space

Reports of studies made over the last few years indicate the need of space. I hope that study can be translated into action and some solution of the problem be developed.

Interior Decorating

It seems that I am constantly urging this. But the desire is to make schools attractive and pleasant to children as one method of influencing learning and to improve their future standards of living.

My Job

Everyone knows the functions of the sheriff, the judge, the selectmen. But who knows about the superintendent of schools! His duties are as varied as the opinions of people may be. Everything that pertains to children is his business and then some. The state board has listed a few of his duties, school boards add to the list. I am not complaining but I sometimes wonder if people realize the magnitude of this job. I have often been told how easy they think it is. Just to touch upon the larger phases of the work: I have credit for 637 teacher visits during the 180 days of school last year, for 70 school board meetings (practically all at night) attended in 12 months. In addition, I have attended various Conferences and meetings — all to keep abreast of the changes in school administration and supervision. I can never forget the hours involved nor the distances covered in order to locate teacher replacements. Then I must spend sufficient time in the office to keep that important task operating efficiently. To summarize, I emphasize the teacher visits, the board meetings, replacements, office, and other meetings. My secretaries who have worked in other offices marvel at the number of items which pass through this office in the course of a day, a week or a year.

I do appreciate the members of this Supervisory Union. They have made great strides in pulling the loose ends together. We now act on major problems as a whole and that is a help to me.

Appreciations

The work you have done in the past year makes a vast improvement. The toilet system in the Brick School is a decided change for the better. The new fire escape indicates your wish for safety at school. The Clark School looks better with its new coat of paint.

I am grateful to the Board, the teaching staff, and your citizens for the interest and consideration you have shown in the progress of the schools.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools.

February 9, 1951.

REPORT OF THE PRINCIPAL

To the Superintendent of Schools, members of the School Board, and citizens of Amherst:

Herewith is presented the annual report of the Amherst High and Junior High Schools.

The total registration in these six grades is 83.

The same three courses of study are offered again this year. These are the commercial, general, and academic courses. Subjects offered are:

Languages: English, French I, Latin II;

Social Studies: U. S. History, Civics, Sociology;

Mathematics: General Mathematics, Algebra II;

Commercial: Typing I and II, Shorthand, Economic Geography, Bookkeeping, and Office Practice;

Science: Biology.

This program of studies compares favorably with other schools of this size except for the lack of Physics and Chemistry. These subjects cannot be given due to the lack of a laboratory in the high school. It has been tentatively planned to have those interested take Chemistry next school year at Milford High School. There is also a need for vocational courses (Home Economics and Shopwork) for the majority of the Amherst pupils who do not plan to take the commercial or college preparatory courses. Serious consideration should be given to including these courses in any future programs for Amherst High School.

Offering these courses to the pupils would mean that official recognition of the seventh and eighth grades as Junior High grades would be extended by the State Department of Education. At present the seventh grade curriculum is English, U. S. History, Mathematics, and Geography. The eighth grade curriculum is English, U. S. History, Mathematics, and General Science.

An attempt has been made this year to supplement

the regular curriculum through a greater use of the daily activity period. With the excellent cooperation of the faculty a more complete program is now offered. The lack of space and personnel has hampered but the determination of the teachers and pupils is overcoming these handicaps. Some activities are: School Paper, Glee Club, Model Airplane Club, Drivers' Education, Ballroom Dancing, Help-Study, and Home Crafts (girls). The latter is very popular with many girls busy sewing, knitting, and embroidering in their spare time. It is hoped that cooking classes can be given later with the aid of several parents. This interest points out dramatically the need for a Home Economics course.

The Physical Education program is still far from adequate but greater use has been made of the Town Hall during the winter months. In the fall and spring group and team sports are offered outdoors twice a week.

Team sports this year are under the direction of Mr. John McGrath, the English teacher, who is currently coaching boys' and girls' basketball. Last fall a touch football team was organized and three games played with Hollis High School. This spring boys' baseball and girls' softball will be the team sports.

Choral Music is offered again this year under Miss Ethelyn Edwards who meets weekly with the Junior High and Senior High groups about forty minutes each. From this comes the choral singing for Baccalaureate and graduation in June.

The assembly program has been improved. Several interesting and worthwhile talks have been presented by people from varied ways of life. A list of the resources of Amherst compiled by the Parent-Teacher Association has proven a valuable source for supplementing both classwork and assembly programs. It is believed that these assemblies will materially assist the guidance program in which all teachers and pupils participate.

The Triple Entente Association is again active this year sponsoring pupil activities. Early in September an informal get-together was held in the form of a hot-dog roast. Later in the month the annual baked bean supper was held. The ever-popular roller skating party took place at the Jack-O-Lantern rink in October. Then in November the pupils put on an ambitious three-act play and the Sophomore Hop which for the first time in many years was a financial success. Another roller skating party was held in January during a week when there was a lull in the basketball schedule. Contemplated activities for the rest of the school year are in February, Basketball Dance; March, Variety Show; April, Food Sale; May, Junior Prom; and in June, Graduation.

Your attention is called to the expected increase in the Amherst High School next school year. This June only five seniors will graduate. About 23 pupils will be in the new seventh grade. From a present number of 83 the enrollment will probably jump to about 100. The present overcrowding in most of the Junior High School rooms will not be alleviated. Furthermore, there will be a taxing of the seating capacities of all rooms with even more classes being taught with studiers in the same room. Several solutions for this situation are being offered by the School Board for your consideration this March.

This past year several improvements were made to the high school building. A fire escape was erected to the second floor on the west side, adding a much-needed safety exit. Badly needed new toilet facilities for both the boys and girls were installed, along with a new teachers' room. Three sets of badly-worn stairs were replaced. Both the office and one classroom were painted a restful green by the pupils with the School Board providing a helping hand. During the summer most of the floors and desks were sanded and painted.

A filmstrip projector plus a varied number of films is now available to supplement instruction.

Amherst was fortunate in having the majority of the teachers return, with Mr. McGrath replacing Mr. Carroll who moved to Kingston, New York. A severe throat ailment prevented Miss Bertha Piper from teaching during November and December. She is back with us. Miss Roby and Mrs. Marion Young complete the faculty. Three out of the five teachers have a Master's Degree.

Special attention should be directed to the Hot Lunch Program sponsored by the Parent-Teacher Association. Over 125 pupils are daily served a nutritious hot lunch for only a nominal charge of \$1.00 weekly. In numerous ways the PTA has helped make this a worthwhile year for many pupils.

Last spring standard content tests covering the basic subjects, English, Mathematics, Science, and Social Studies were given to all the high school pupils. The results showed that the Amherst High School pupils were above the nation's average in intelligence and possession of subject knowledge.

I wish to thank the members of the School Board, the Superintendent of Schools, the faculty, and the citizens of Amherst for their continued cooperation in our attempts to educate Amherst children.

Respectfully submitted,

ALAN C. McKERNAN,

Principal.

REPORT OF COMMITTEE FOR STUDY OF ADDITIONAL SCHOOLROOMS

This committee was appointed to "investigate the possibility of acquiring a building suitable for classrooms with reasonable modifications and to place in the warrant for the next School District Meeting an article to raise and appropriate the necessary funds for this."

Need for Additional Space

The report made at the School District Meeting of December 16, 1950 stated that the increase in school population during the next five years by actual count is 85 pupils. It should be borne in mind that this increase will be distributed over 12 grades and that the burden is not restricted to any few grades.

To determine if there has been a general trend toward drop in numbers of pupils in each class as it progressed through school, graphs were made covering individual classes over the last thirty years. These varied so radically, especially in the lower grades, that no general conclusion could be drawn from them, except that in the high school there was pretty consistently a drop. The average (unweighted) showed this drop to be roughly 10% per year of the school-entering-number of each class. For the elementary grades, individual curves showed both increases and decreases from the school-entering-number. It was decided therefore to use actual count (present school attendance and census of under-school-age children) in arriving at the needs of elementary grades.

GRADE I TO VI

CLARK SCHOOL has the following attendance and square feet per pupil:

North Room	900 sq. ft.	39 pupils	23.1 sq. ft. each
South Room	900 sq. ft.	38 pupils	23.7 sq. ft. each
Basement Room	690 sq. ft.	23 pupils	30.0 sq. ft. each
	<hr/>	<hr/>	<hr/>
	2490 sq. ft.	100 pupils	24.9 sq. ft. each

GROUND FLOOR OF HIGH SCHOOL

West Room	684 sq. ft.	25 pupils	27.4 sq. ft. each
North Room	660 sq. ft.	32 pupils	20.6 sq. ft. each
East Room	540 sq. ft.	23 pupils	23.5 sq. ft. each
<hr/>			
	1884 sq. ft.	80 pupils	23.5 sq. ft. each
Total	4374 sq. ft.	180 pupils	24.3 sq. ft. each

The expected attendances of these grades over the next five years:

	1950-1	1951-2	1952-3	1953-4	1954-5	1955-6
I	39	33	35	36	28	32
II	38	39	33	35	36	28
III	23	38	39	33	35	36
<hr/>						
	100	110	107	104	99	96
IV	25	23	38	39	33	35
V	32	25	23	38	39	33
VI	23	32	25	23	38	39
<hr/>						
	80	80	86	100	110	107

The totals shown for the Clark School indicate after next year a decrease.

In 1952, the class of 38 pupils entering Grade IV would tax the capacity of the largest room on the ground floor of the High School building, allowing an area per pupil of only 18 sq. ft. In 1953, the total enrollment for Grades IV to VI would be increased by 14 pupils, with a further increase a year later of 10 pupils. To accommodate this total would be impractical in the present rooms and we recommend:

Move Grade IV to the vacant room in the Clark School, capacity 40 desks, finishing it off with asphalt tile floor, sheetrock and acoustic tile ceiling, fluorescent lights, coat shelves, sheathing studding above masonry, installing ceiling radiators, building a fire escape similar to that on the south side of the building and painting.

We recommend also that asphalt tile flooring, additional lighting, coat shelves and painting be appropriated for the South Basement Room. Provision for additional toilet facilities in the Clark School is being made.

GRADES VII TO XII

There are at present available:

Main Room	1596 sq. ft.	60 desks	26.6 sq. ft. per desk
N W Room	361 sq. ft.	23 desks	15.7 sq. ft. per desk
N E Room	361 sq. ft.	23 desks	15.7 sq. ft. per desk
Office			
Annex			

The expected attendances for these grades during the next five years, allowing a drop throughout the high school years of 10% of the school-entering-number per year are:

	1950-1	1951-2	1952-3	1953-4	1954-5	1955-6
VII	23	23	32	25	23	38
VIII	20	23	23	32	25	23
IX	11	19	22	21	29	23

In so far as the actual seating capacity is concerned, there is sufficient floor area for some years, but for classroom work more rooms are required. Our above recommendation provides one room and the School Board states that one additional room is required to adequately care for the program schedule. That additional room they propose to acquire by partitioning off a part of the dining room in the Town Hall building. We are in accord with this proposal.

Recommended Article for Warrant

It is recommended that an article be included in the warrant to raise and appropriate \$7000.00 to cover the cost of finishing-off the two basement rooms of the Clark School, providing added toilet facilities there and partitioning-off a room in the dining hall of the Town Hall building.

Other Possibilities

This committee considered the possibilities of buying and converting residences and the brick building across from the Post Office and decided that none of

these were worthy of being recommended. The possibility of renting the upper floor of the Village Store was considered, but it was not available.

The using of the main hall of the Town Hall building for one or two classrooms was looked upon favorably at first, but the difficulty of removing the desks was considered to be too great, especially during the basketball season.

The possibility of renting the Legion Hall seemed suitable, but as the space there would permit of only 25 to 30 desks, whereas the room in the Clark School would accommodate 40 desks, we recommended the latter.

We have consulted with Mr. French of New Boston regarding the construction of the single classroom Cape Cod type of building, but feel that it is not to be recommended for Amherst's present problem.

There is in the attic of the High School a clear space 18 feet wide between verticle tie-rods, with additional space outside of these rods, by 9 feet high by 78 feet long. This might be utilized for possible added curriculum or for laboratories where no fire hazard, vibrations nor heavy loads are entailed. For the latter, basement rooms in that building could be used.

We investigated the possibility of constructing a two room addition on the east side of the present Clark School of exactly the same floor area as the present above-ground floor, the corridor to be extended across the building and an exit door to be placed at the east end of the corridor; no basement rooms to be made under this addition, but the foundations to be carried down sufficiently to permit of such basement rooms being added later or of the addition being converted into a gymnasium, should such a possibility arise later; present toilet facilities to be trebled and a teachers' room to be put in a corner of one of the new rooms. The estimated cost of such an addition is \$27,000 to \$30,000.

but we believe that the recommendation submitted will take care of the present needs.

In conclusion, we wish to emphasize that the so-called basement rooms of the Clark School are in the opinion of the majority of this committee satisfactory for use as schoolrooms:—the floors are dry and not cold, the air is dry and fresh, the rooms are nearly half above ground level (5' below, 4'9" above). Voters are urged to inspect the vacant room.

February 15, 1951.

HENRY F. MERRILL,
F. TENNEY CLOUGH,
CARL S. MERRILL,
DONALD M. STOCKWELL,
OLIVER F. MERRILL,
Committee.

Weep not that their toils are over;

Weep not that their race is run;

God grant we may rest as calmly

When our work, like theirs, is done;

Till then we would yield with gladness

Our treasures to Him to keep,

And rejoice in the sweet assurance —

He giveth His loved ones sleep.

	° 20 Days		

Vital Statistics of a town are one of its most important records, not merely for today, but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out on Marriage, Birth and Death certificates, it might be of great help in making out the records of today.

I hereby certify that the foregoing returns are correct according to the best of my knowledge and belief.

CATHERINE A. KRUGER, Town Clerk.
